Emergency Numbers

Fire **9-1-1**
Police **9-1-1**
Ambulance **9-1-1**
Sheriff **9-1-1**
Poison Control **1-800-222-1222**

NOTICE

Cellular 911 Calls

When calling 9-1-1 on a cellular telephone, be prepared to provide the following information: your name, cellular telephone number, nature of the emergency, and the location of the incident. Please note: your call may be answered by a telephone company operator or a 9-1-1 dispatcher outside of your area.

Privacy Considerations

The 9-1-1 (nine-one-one) emergency telephone number has been developed to quickly summon emergency service in a crisis situation. Callers should realize that when reporting an emergency by dialing 9-1-1, their telephone number (including non-published numbers) and their address may be automatically displayed on a viewing screen located at the 9-1-1 answering centers and that this call may also be recorded. This display of the calling number and address enables the emergency agency to quickly locate the caller even if the call is disrupted by the crisis.

Callers who do not wish to have their telephone number displayed on the viewing screen should report an emergency by dialing the ten-digit telephone number of the appropriate emergency agency.

LONG DISTANCE DIALING

DIRECT DISTANCE DIALING

- To call within your area code, 1+ 940 + number
- To call outside your area code, 1+ area code + number ....

If the operator asks for "Your number please?" give the number of the telephone from which you are calling.

DIRECTORY ASSISTANCE

For Local Numbers dial 1+411
For long distance numbers within the U.S. dial 1+ Area Code + 555-1212
When you dial 1 + Area Code + 555-1212 for long distance numbers outside your area code, a service charge from your long distance company may apply. Please give the operator your number if requested.

OPERATOR-ASSISTED CHARGES

All operator-assisted calls are billed at a higher rate than direct dialed calls. Verify busy or interrupt service calls by the operator have additional charges.

SOME TYPES OF CALLS

BILL TO THIRD NUMBER

Customers may place calls and transfer the charge to another telephone. This service requires operator assistance. The call may be either station-to-station or person-to-person.

COLLECT

You can call Collect if the person or firm you are calling agrees to pay the charge. If you want to make a Collect call, please be sure to tell the operator when you place the call. Charging starts when the conversation begins.

OVERSEAS/INTERNATIONAL CALLING

You can call practically every telephone in the world from your telephone. Tell the operator you wish to place an Overseas call and give the name of the country you are calling.

Direct Dial: 011 + Country Code + City Code + Phone Number

Operator Assistance: 01 + Country Code + City Code + Phone Number

NOTE: Long distance charges apply on CALLS TO TELEPHONES WITH AUTOMATIC ANSWERING SETS. Charging begins when the called telephone is answered in person or by an automatic answering set.

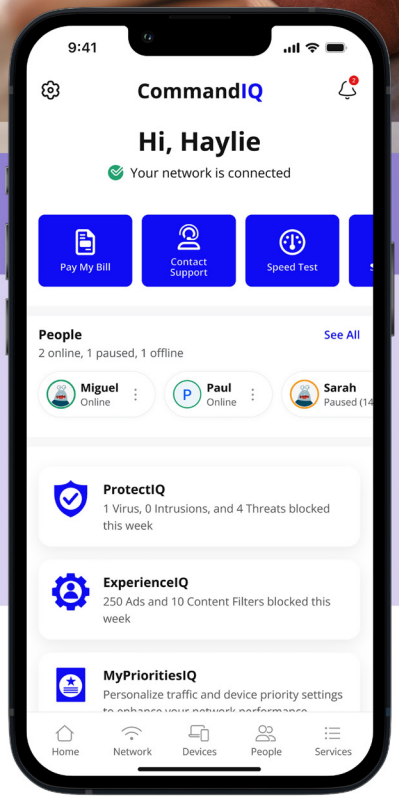

CommandIQ®

More Control, Better Connection

Meet the all-new CommandIQ® Wi-Fi app. Smarter, simpler, and more secure than ever.

Be the boss of your connected home. Experience seamless Zoom calls with your work team, lag-free gaming glory, and visibility into screen time and security for everyone in your family. CommandIQ makes controlling your home internet easy and worry-free.

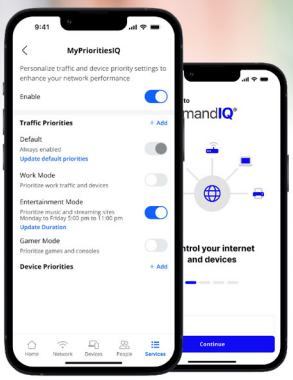

With an all new main dashboard, you can now quickly swipe to find the features and functions you need for assigning priority devices, setting screen time limits, and ensuring your home connection is fast and secure.

Continue reading to see how CommandIQ can help you take control of your home internet!

CONNECTING WITH YOU
COMMUNITY/COMCELL

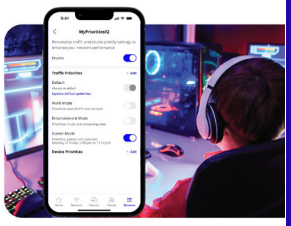

Wi-Fi For The Way You Live

Your Wi-Fi should lift you up, not let you down. With the new CommandIQ app, you're in charge of a fast, secure, and personalized connection that makes life easier whether you are streaming, gaming, working, or parenting. Say goodbye to the days of sluggish WiFi and frustration. We've rebuilt CommandIQ to fit your your life like a glove, with intuitive tools that give you total control, peace of mind and a connection you can count on. Here's how:

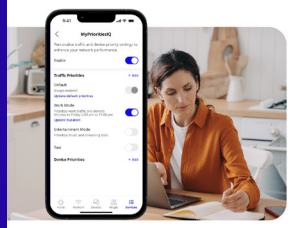

Peace of Mind, Mom-Approved

ExperienceIQ integration lets you set schedules to pause internet during homework or bedtime and block unwanted websites. Give your kids the access they want with peace of mind.

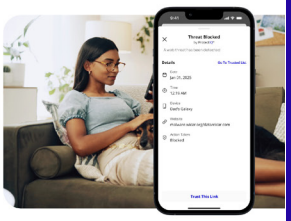

Unleash Your Inner Champion

Our new MyPriorities feature lets you switch to "Gaming Mode" with a tap, giving your console or PC the VIP treatment with smooth, lag-free gameplay and real-time performance alerts. Our scrollable carousel puts bandwidth tests and device prioritization at your fingertips. Game on!

Prioritize Productivity

Flip to "Work Mode" in myPriorities to prioritize your laptop for seamless video calls and fast uploads. New Wi-Fi connectivity status and performance metrics let you keep an eye on your network's health, so you're never caught off guard. Your home office just got a serious upgrade.

Simple, Secure, and Stress-Free

The all-new CommandIQ app sets up in seconds and gives you total control over your connection. Real-time alerts warn you of connection issues, and ProtectIQ keeps hackers and viruses at bay. Spot unfamiliar devices and boot them with a tap. More control, less stress.

Feature-packed to maximize your home internet!

Scrollable Carousel

Swipe to your favorite features right from the dashboard.

myPrioritiesIQ Modes

"Gaming," "Work," or "Entertainment" optimize your connection.

Easy Setup

Simple installation means you're in control in seconds.

Real-Time Insights and Alerts Carousel

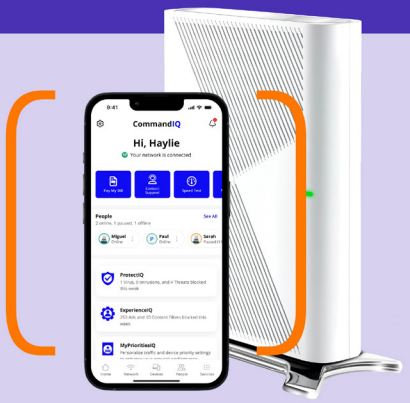

Wi-Fi status, alerts, and performance stats keep you in the know.

People Profiles and Device Recognition

Personalize profiles and spot strangers on your network in a snap.

Everything You Loved, But Better

Guest networks, WPS setup, outdoor WiFi, run speed tests, WiFi sharing and security tools are even easier to use.

Only available from Comcell Community. Download today from the Google or Apple store.

COMMUNITY/COMCELL

LONG DISTANCE CARRIER OPTIONS

Customers may choose a long distance company for intraLATA and interLATA calling. Calls made within the local calling area (intraLATA) will be handled by Community Telephone Company, Inc. / Comcell or the carrier of your choice. Calls made to places outside the local LATA (interLATA) may also be handled by Community Telephone Company, Inc. / Comcell or the carrier of your choice.

Community Telephone Company, Inc. / Comcell offers nationwide and international calling on a per call basis as well as offering unlimited calling plans. Please contact our business office for details.

These calls are carried on the long distance company's network and billed at their rates. Your local company may act as the billing agency for your long distance company, or your long distance company may bill you separately.

For information about long distance rates and services, contact the long distance companies serving your area. If you have questions about the companies serving your area, call your local business office.

Comcell - Long Distance Rates and Plans

	Any Calling Minute	Plan Cost

* Allows for calling on any day and at any time of day or night. The rates and/or charges are regulated by the Public Utility Commission of Texas and were correct as of the date this directory was compiled. These rates and/or charges are subject to change by order of the Public Utility Commission of Texas. Current rates and/or charges are always available from your business office. Taxes and surcharge may also apply.

** This cost is applicable to international calling only and may require subscription to Unlimited Nationwide calling.

INSIDE WIRE MAINTENANCE SERVICE PLAN

ABOUT THE PLAN

Inside Wire Maintenance Agreement is an optional monthly service for residential and small business customers that provides repair protection for the telephone jacks and wires inside your home.

Telephone lines normally connect to an Optical Network Terminal on your property. (This device may be located either within your home or office or on an outside wall.) From this interface connection point, telephone lines extend in the building, through the wires to the jacks where you plug in your computers and telephones. This wiring, from the Optical Network Terminal to the jacks, is called "inside wire." The Inside Wire Maintenance Plan covers repairs to the inside wire and the jacks. Please remember, wiring and jacks must meet the telephone industry standards to be covered by the Inside Wire Maintenance Agreement.

If you purchase Inside Wire maintenance service, you may cancel it at any time.

REPAIRS COVERED BY THE PLAN

With an Inside Wire Maintenance Plan, your local company will repair faulty telephone jacks or wire inside your home, (meeting telephone industry standards) resulting from normal usage, aging and deterioration. Wiring and jacks must be a standard telecommunications product, installed following standard telecommunications procedures, using appropriate hardware and fasteners, and being used for the appropriate telecommunications applications.

REPAIRS NOT COVERED BY THE PLAN

The Inside Wire Maintenance Plan does not cover:

- Wiring and jacks that do not meet telephone industry standards, are not standard telecommunication products, or standard products being used for inappropriate applications, and/or have been installed, replaced or altered incorrectly by persons other than telephone company personnel.
- Replacement or repair of wiring or jacks, which have been removed, loosened, disconnected, or otherwise altered by people other than telephone personnel during remodeling.
- Repair of damage due to malicious activity, vandalism, riot, or civil disturbance.
- Wiring (aerial or buried) connecting two or more separate buildings at a subscriber's premises.
- Repair of telephone instruments and other devices such as computer modems and answering machines connected to inside wire and jacks.
- Battery Backup Power equipment and service calls.

INSIDE WIRE MAINTENANCE PLAN KEEPS YOU TALKING

When you report a problem with your telephone jacks or wire inside your home, we know you will want it fixed as soon as possible.

If possible, before reporting trouble on your line, do a preliminary check by unplugging all customer-owned telephone equipment from the telephone jacks to attempt to isolate the source of the trouble on the line. This could possibly help avoid service charges if you find customer equipment or wiring is causing the problem.

Service charges will apply if a serviceman is dispatched to a location for repairs and determines that the trouble is beyond the Optical Network Terminal, in customer-owned wiring or instruments connected to the wiring or jacks.

If you do not have Inside Wire Maintenance and you want your local company to make repairs, you will be charged an hourly rate plus materials.

INTERNET MAINTENANCE PLAN

ABOUT THE PLAN

The Internet Maintenance Plan is an optional monthly service for residential and business customers that provides protection for the internet cables, internet jacks, as well as mesh extender connectivity at your premise.

Internet lines and mesh extenders normally connect to an Optical Network Terminal on your property, usually located within your structure, yet sometimes located on an outside wall. From this device, connectivity is extended into and throughout most areas of the structure, including some outdoor areas. This Internet Maintenance Plan covers repairs to the internet cabling, jacks and mesh extender connectivity.

Subscription to this plan may be cancelled by the customer at any time.

PLAN TERMS

If our IT staff are given an opportunity to remotely identify and address your issue and we are still unable to resolve the matter, our technician(s) will come on-site. The company reserves the right to limit the number of free trip charges and/or free cable repairs during any billing period. This plan does not cover cable moves or replacements related to customer equipment moves, remodeling, etc.

COSTS WAIVED UNDER THE PLAN (no charge)

With the Internet Maintenance Plan, we will repair faulty internet cables, jacks or mesh extenders (meeting internet industry standards) and repair/replace such component failure resulting from normal usage, aging and deterioration. Wiring and jacks must be a standard internet product, installed following standard internet service procedures, using appropriate hardware and fasteners, and being used for the appropriate internet applications. Costs waived include trip charges, labor charges, material costs, and weekend or holiday rates, when the fault is a natural occurrence.

COSTS NOT COVERED BY THE PLAN

The Internet Maintenance plan does not cover:

- Issues caused by the customers.
- Damage caused by the customer, the customer's guests, contractors or pets.
- Provisioning of customer owned equipment.

Additionally, for cable runs longer than 300 ft. a supplementary plan is available for similar coverage, with a monthly fee of $3. Contact our office to discuss the Cat 5 Maintenance fee and add it to your service.

SPECIAL HELP PROGRAMS

THE LIFELINE SERVICE

Lifeline Service is available in the following serving areas: Bluegrove, Joy, parts of Lake Arrowhead, Lake Kickapoo, Scotland and Windthorst. The Federal Communications Commission and the Public Utility Commission of Texas have established the Lifeline Service program to make communications services more affordable for eligible customers. Lifeline Service is a program to make communications services available at reduced rates to eligible residential customers. Lifeline provides a discount on the monthly service of up to $9.25 per month for eligible low-income subscribers. Subscribers may receive a Lifeline discount on either a wireline or a wireless service but may not receive a discount on both services at the same time. Lifeline also supports broadband and broadband-voice bundles. FCC rules prohibit more than one Lifeline service per household. Customers may also qualify for a state discount on the local voice telephone service.

Information about customers who qualify for Lifeline Service may be shared between state agencies and Community Telephone Company, Inc.

WHO QUALIFIES?

You are eligible for Lifeline Service if your annual household income is at or below 135% of the federal poverty guidelines (150% for State Lifeline support) or in your household resides a person who receives or has a child who receives benefits from at least one of the following programs:

- Medicaid
- Supplemental Nutrition Assistance Program (SNAP)
- Supplemental Security Income (SSI)
- Federal Public Housing Assistance (FPHA)
- Veterans Pension or Survivors Pension
- Temporary Assistance for Needy Families (TANF)**
- Low Income Home Energy Assistance Program (LIHEAP)**
- Health benefits coverage under the state Children's Health Insurance Program (CHIP)**
- National School Lunch Program-Free Lunch Program**

**These programs no longer qualify for the $9.25 federal lifeline discount as of December 2, 2016; however, you may be eligible for the state discount.

Lifeline Service customers subscribed to voice service will have an unlimited number of minutes for calls made within their local calling area. Lifeline discounts do not apply to optional custom calling features, long distance service, connection charges, or other miscellaneous charges. Lifeline customers may elect to subscribe to toll blocking at no charge.

Lifeline service is limited to one discount per household, and households are not permitted to receive Lifeline benefits from multiple providers. Lifeline is a non-transferable benefit and you may not transfer your benefit to any other person. Information about customers who qualify for Lifeline service may be shared between state agencies and Community Telephone Company, Inc.

HOW DO TELEPHONE CUSTOMERS APPLY FOR LIFELINE SERVICE?

Medicaid, Supplemental Nutrition Assistance Program (SNAP) and SSI recipients:

If you have telephone service and participate in one of the programs listed above, or your annual household income is at or below 135% of the federal poverty guidelines (150% for state Lifeline support), and you are not receiving the Lifeline Service reduction, please contact the Low-Income Discount Administrator (LIDA) at 1-866-454-8387 (1-866-4-LITE-UP).

FPHA and LIHEAP recipients:

If you have telephone service and participate in one of the programs listed above, or your annual household income is at or below 150% of the federal poverty guidelines, and you are not receiving the State Lifeline Service reduction, you need to contact the Low-Income Discount Administrator (LIDA) at 1-866-454-8387 (1-866-4-LITE-UP) to request a blank self-certification form for Lifeline Service. Once you receive the form, complete and sign it and mail it back to LIDA. Once approved by LIDA, you will see the eligible Lifeline Service reduction in your monthly bill within sixty days.

Low-Income Standard

If you do not participate in any of the programs listed above and believe your household income is at or below 135% of the federal poverty guidelines and you currently have telephone service, call LIDA at 1-866-454-8387 (1-866-4-LITE-UP) to request a blank self-certification form for Lifeline Service. Once you receive the form, complete and sign it and mail it back to LIDA. Once approved by LIDA You will see the eligible Lifeline Service reduction in your monthly bill within sixty days.

SERVICES FOR DISABLED PEOPLE

The Specialized Telecommunications Assistance Program (STAP) provides financial assistance to help Texas residents with disabilities purchase basic specialized equipment or services needed to access the telephone network. For more information, contact the Texas Health and Human Services - Office of Ombudsman at (512) 407-3250 or via email at dhhs@hhsc.state.tx.us. Hearing and speech-impaired individuals may contact the **Texas Department of Health and Human Services through Relay Texas at**

711

or

1-800-735-2989

or

https://www.hhs.texas.gov/services/disability/deaf-hard-hearing/stap-services.

This program is open to all individuals who are residents of Texas and have a disability.

GENERAL INFORMATION

TELEPHONE SAFETY

The telephone is one of the safest appliances in your home or office. There are, however, a few situations where a telephone user needs to be cautious.

Use of the telephone near water

The telephone should not be used while you are in a bathtub, shower or pool. Immersion of the telephone or handset in water could cause an electrical shock.

Use of the telephone during an electrical storm

You should avoid using a telephone during an electrical storm in your immediate area; calls of an urgent nature should be brief. Although your local telephone company uses protective measures to limit abnormal electrical surges from entering your home, absolute protection is impossible.
There is a remote risk of a dangerous electrical shock from lightning when using the telephone during a nearby electrical storm.

Use of the telephone to report a gas leak

If you think you've found a gas leak, you should not use a telephone in the vicinity of the leak until the leak is repaired. The telephone contains electrical contacts that could generate a tiny spark when you lift the handset and dial. While unlikely, it may be possible for this spark to trigger an explosion if the gas concentration is high enough.

ANNOYANCE AND THREATENING CALLS

If you receive a threatening call, report it immediately to the police.

If you receive obscene or crank calls, follow these suggestions:

1. Hang up at the first obscene word, or if the caller doesn't say anything the second time you say hello.
2. Give no information:

   such as name, address or telephone number, such as the fact that you are alone until the caller has been identified.
3. Advise children;
   - to give no information to strangers
   - that if you are not home, they should say "Mother/Daddy can't come to the telephone right now".
4. If calls persist;
   - call the police department first,
   - call the business office.

Section 42.07 of the Penal Code of the State of Texas makes it unlawful for any person (1) to use vulgar, profane, obscene or indecent language in a communication by telephone, (2) by telephone, to threaten to take unlawful action against anyone, or (3) to place telephone calls anonymously at unreasonable hours in an offensive or repetitious manner, if in doing any of these acts the person intentionally, knowingly, or recklessly annoys or alarms, or intends to annoy or alarm, the recipient. Violation of this law is punishable by a fine up to $1,000, or confinement up to 180 days in jail, or both.

EXTRA LISTINGS

Additional listings can be ordered for other members of your household or business. There is an additional monthly charge.

DIRECTORY LISTINGS OR OMISSIONS

It is desired that all subscribers be listed properly in the directory. Errors or omissions should be promptly reported to the business office.

APPLYING FOR TELEPHONE SERVICE

It helps to have the following information available when you apply for service:

- complete street address (apartment number if applicable)
- how you want your name to appear in the directory
- employment status
- information about your previous telephone service
- your choice of a long distance carrier

DISCONNECTING TELEPHONE SERVICE

Call the business office to disconnect service. Charges will be stopped on the day you call or the date you request service to be disconnected.

If there is a change of address, please provide the new address for your business office and a contact number.

If you have any questions, please call your business office, or call the telephone number shown on your final bill reflecting the charges.

PRE-WIRING FOR TELEPHONE SERVICE

If you are remodeling or have a new business or residential structure under construction, we can install telephone wires so that they do not show. This must be done before wall framing is covered with wallboard.

VACATION RATES

If you are going to be gone for 60 days or more, your service can be put on vacation rates. Call your business office for more details.

SPECIAL SERVICES

Customers requesting information about services such as WATS, foreign exchange, enterprise or other special services should call or write the business office for information or assistance.

AUTOMATIC DIALING ANNOUNCING DEVICES

No Automatic Dialing-Announcing Device (ADAD) shall be connected to or operated over the local telephone company network until conformance with certain requirements is established. Contact your business office for requirements. If the ADAD user fails to comply, the telephone company providing local service may refuse to provide service until the noncompliance is remedied or the provider may terminate service.

- For information about any telephone service not shown on these pages, call the business office and ask for your service representative, who will be glad to help you.

USE OF RESIDENCE SERVICE FOR BUSINESS PURPOSES

Residence service is installed with the understanding that the service will be used for normal social or domestic purposes. A residence service will be changed to business service if used primarily or substantially for business purposes, or if the residence telephone number is advertised in connection with the sale of products or services.

GUARDING AGAINST FRAUD

For your protection, new procedures enable the telephone company to detect and investigate fraudulent calls. State and federal laws provide that no person shall defraud or attempt to defraud the telephone company of its lawful charges. Violators, upon conviction, are subject to imprisonment or fine or both.

CUSTOMER-PROVIDED EQUIPMENT

Customer-provided equipment may be connected to telephone company facilities only if it is registered or otherwise complies with the FCC's rules and meets the conditions set forth in the Company's tariffs. Advance notification to the telephone company, by the customer, of the type of equipment to be connected and the type of telephone company facility required to make the connections is necessary. These FCC rules and tariffs are designed to meet the convenience of the customer and at the same time protect the telephone network against any possible hazards to customers and company employees.

A service charge may be incurred if the telephone company visits the premises of the customer, and the service difficulty or trouble is found to have been caused by the customer's equipment or facilities.

If you have any questions concerning the use of customer-provided equipment, please contact your business office.
